PRODUCT RANGE 2016

Mission

To manufacture top notch quality engineering products that help reduce manual efforts in every walk of life

About Us

Mathana is a pioneer in product design and manufacturing quality oriented products since inception. We have produced an array of convenient products ranging from simple mechanical levers to complex machines that simplify manual effort required to accomplish various agricultural and industrial tasks. Our product range spans Agri-machinery, Domestic home appliances and Agri Hand Tools. Our emphasis on quality makes our product distinct and durable.

Our Factory

Our factory is located at Bandagadde, a lush green hamlet in Malnad region of Karnataka. The factory has state-of-the-art facilities like the latest CNC machines and is self sufficient to cater to the customers needs. Our employees are well trained on designing, welding, grinding, sheet metal moulding, assembling and packaging. We have an excellent network across India to market our products. We also undertake design and production of customised equipments and machinery to suit your needs.

Our Showroom

Mathana Home Industries has setup a showroom for its products in Sagar. This sprawling showroom showcases every quality product from Mathana. Come, visit our showroom and experience our products first-hand.
